## BOIL WATER NOTICE RESCINDED

July 12, 2019

**TO: Customers of 439 Water Supply Corporation who are located from east of Hwy. 93, along FM 439 to the Belton Dam on both North and South sides of FM 439, including all of Sparta Rd.**

On Wednesday, July 10, 2019, the Texas Commission on Environmental Quality required 439 Water Supply Corporation, PWS ID #0140076, to issue a BOIL WATER NOTICE to inform customers, individuals, or employees located in the area specified above that, due to reduced pressure which occurred July 10, 2019, in the 439 Water Supply system, the water from this public water system was required to be boiled prior to use for drinking water or human consumption purposes.

439 Water Supply Corporation has taken the necessary corrective actions to restore the quality of the water distributed by this public water system used for drinking water or human consumption purposes and has provided TCEQ with laboratory test results that indicate that the water no longer requires boiling prior to use as of July 12, 2019.

If you have questions concerning this matter, you may contact Erron Lowry at 254-613-3100.

We thank you for your patience in this matter.
