

MANDATORY WATER CONSERVATION MAY 26, 2025 – MAY 30, 2025

WCID 1, our water provider, will be completing two critical projects and will require a shutdown of a 48-inch line to make the final connections for a period of **up to 4 days**. To comply with their request and avoid any boil water advisory, **beginning Monday May 26, 2025**, 439 Water Supply Corporation is implementing a **MANDATORY STAGE 4** restrictions of our Drought Contingency plan to **reduce at least 30% in total water usage**. Please refer to the restrictions below.

Your cooperation and patience in this matter is greatly appreciated!
